Currently working as a **Manager User Experience** in MakeMyTrip, the leading travel booking platform in India. Being a firm **believer in simplicity**, I consistently strive towards producing user centred and innovative design solutions to the design problems around me. Grew up befriending sketch pens and crayons which triggered my affinity and inclination towards design, making me **sensitive towards each and every detail**. Always prefer to explore the new and unattended path to find seamless simple solutions for sophisticated design problems.

Apart from design, I am a **travel enthusiast** who loves driving long distances and exploring new places.

Work Roles (8 Yrs Overall Experience)

Manager UX

Jan 2022-Till Now

Deputy Manager UX

Jul 2019-Jan 2022

1. Managing a team of 3 Designers

Managing the Design sprints & Ensuring quality of design across the corporate products (myBiz, Quest 2 Travel, & myPartner)

2. Design lead for the Enterprise suite (myBiz).

Worked on multiple projects to improve the aquisition and adoption of the product. Some of the projects are, Enable to book with traveller policy, Admin navigation revamp, Expense management tool for clients, myBiz website revamp, Central booker funnel, Login/Signup revamp & unification, New myBiz wallet and many more.

3. Flight booking funnel both domestic and international flights.

Flight filters for more engagement, Information hierarchy on the return trip booking on the mobile app, Insurance attach on the flight funnel by enhancing the UI, Flight picker to help in choosing the best flight, Flight explorer (yet to be live)
